

Introducing Griswold GripON™

A new versatile line of natural sponge products designed to prevent slipping and sliding of electronics, furniture, appliances and more.

Griswold GripON™ material features a natural rubber formulation that promotes a high coefficient of friction (CoF) along with a film backing – making it easy for converters to easily apply their own pressure sensitive adhesive solution and meet specific application needs.

Available in three convenient widths, converters can custom cut to the desired shape to meet their customers' needs.

- 4.5"
- 9"
- 18"

Griswold GripON materials are well-suited to meet the spacing and stability needs of a wide range of applications such as skid-resistant feet for electronic equipment, medical devices, computers, calculators, household appliances or as cushioning within electronic devices. Key performance features of the material include:

- High skid-resistance
- Minimized vibration
- Noise reduction
- Protection/prevention of surface scratching
- Flexibility in size and shape - can be cut to meet specific application needs
- Flat surface allows for even wear over time
- Resilient and long-lasting
- Optional self-adhesive backing
- Simple application

GRISWOLD®

GripON™
Less Slip. More Grip.

Try Griswold GripON material for applications such as:

- Small circles or squares to apply as “feet” on electronics, appliances, small equipment, medical devices, etc.
- The reduction of slipping and sliding on floors and countertops
- The reduction of noise and friction in applications such as in cabinet and drawer closings
- And much more!
